

4. (Amended-Clean Text) The liposome according to claim 1, wherein the compound is bonded to a surface of the liposome.

5. (Amended-Clean Text) The liposome according to claim 1, wherein the polyalkylene glycol is polyethylene glycol.

9. (Amended-Clean Text) The liposome according to claim 1, wherein an antibody is further bonded on a surface of the liposome.

12. (Amended-Clean Text) The liposome according to claim 10, which is obtained by reacting a liposome having a maleimide group and a sulfur-containing group deriving from the antibody to form a thioether bond.

13. (Amended-Clean Text) The liposome according to claim 10, wherein the antibody is a GAH antibody.

14. (Amended-Clean Text) The liposome according to claim 10, wherein the antibody is a $F(ab')_2$ antibody fragment.

AB 15. (Amended-Clean Text) The liposome according to claim 10, wherein a compound containing a polyalkylene glycol moiety is further bonded to a surface of the liposome.

18. (Amended-Clean Text) The liposome according to claim 16, wherein the compound is bonded to a surface of the liposome.

AB 19. (Amended-Clean Text) The liposome according to claim 16, wherein the polyalkylene glycol is polyethylene glycol.

2020.01.03 09:26:50
AS 23. (Amended-Clean Text) The liposome according to claim 16, which is a liposome obtained by reacting a liposome having a maleimide group and a sulfur-containing group deriving from the antibody to form a thioether bond.

AS 24. (Amended-Clean Text) The liposome according to claim 16, wherein the antibody is a GAH antibody.

25. (Amended-Clean Text) The liposome according to claim 16, wherein the antibody is a F(ab')₂ antibody fragment.
